Jerry North  
Interstate Brick  
9780 South 5200 West  
West Jordan, Utah 84088-8654

Dear Mr. North:

On June 12, 2000, we received your Notice to conduct new mining activities in Manning Canyon. However, the clay extraction you propose would only be authorized under the mineral materials 3600 regulations. Prior to creating new surface disturbance, we require all operators to update the reclamation status of mining activities within the Salt Lake Field Office.

On June 28, 2000, you met with Cheryl Martinez to visit and discuss Interstate Brick's active mining Notices. Please indicate in writing Interstate Brick's reclamation plans for the following areas:

U-69204, Jim Gay, located in T. 7 S., R. 1 W., Section 12

The pit on BLM's surface/ minerals would need to be backfilled and reseeded appropriately as mentioned in the original Notice. No inert materials would be allowed to backfill this pit or any other pit.

U-69216, Smokey Joe, located in T. 7 S., R. 1 W., Sections 8 and 9

U-77014, Wells Canyon, located in T. 6 S., R. 3 W., Section 27

Thank you for your cooperation. If you have any questions or require additional information, please contact Cheryl Martinez of my staff at (801) 977-4371.

Sincerely,

/S/ MICHAEL G. NELSON
